ABOUT US

ShareXSphere is an AI trading software-based project where the company works through smart trading technology and provides earning opportunities to its users.

The platform is designed for users who want to participate in a simple package-based earning system. After activating an ID, users become eligible for different income options available in the software.

ShareXSphere focuses on technology, transparency, and user growth. Our aim is to create a smart digital earning ecosystem where users can grow with AI trading and referral-based income structure.

We believe in making digital earning simple, smart, and easy to understand for every user.

3 TYPES OF **INCOME**

ShareXSphere provides three types of income to its users:

These income options are designed to help users grow through ID activation, referrals, and team-based level structure.

sharexsphere.live

REGISTRATION INCOME

Registration Income is available only for users whose ID is **Top-Up activated**.

If a user's ID is **Top-Up active**, then only their referral link will open for new registration.

On every successful registration through an active referral link, the sponsor will receive **\$1 Registration Income**.

Income Per
Registration:

\$1

DIRECT INCOME

Direct Income is paid when a new user activates their ID through a sponsor referral.

When a user joins **ShareXSphere** and activates their package, the direct sponsor receives direct income.

Direct Income: \$5

Direct Income is paid to the sponsor on every successful package activation through their referral.

LEVEL INCOME

ShareXSphere provides Level Income up to 20 levels.

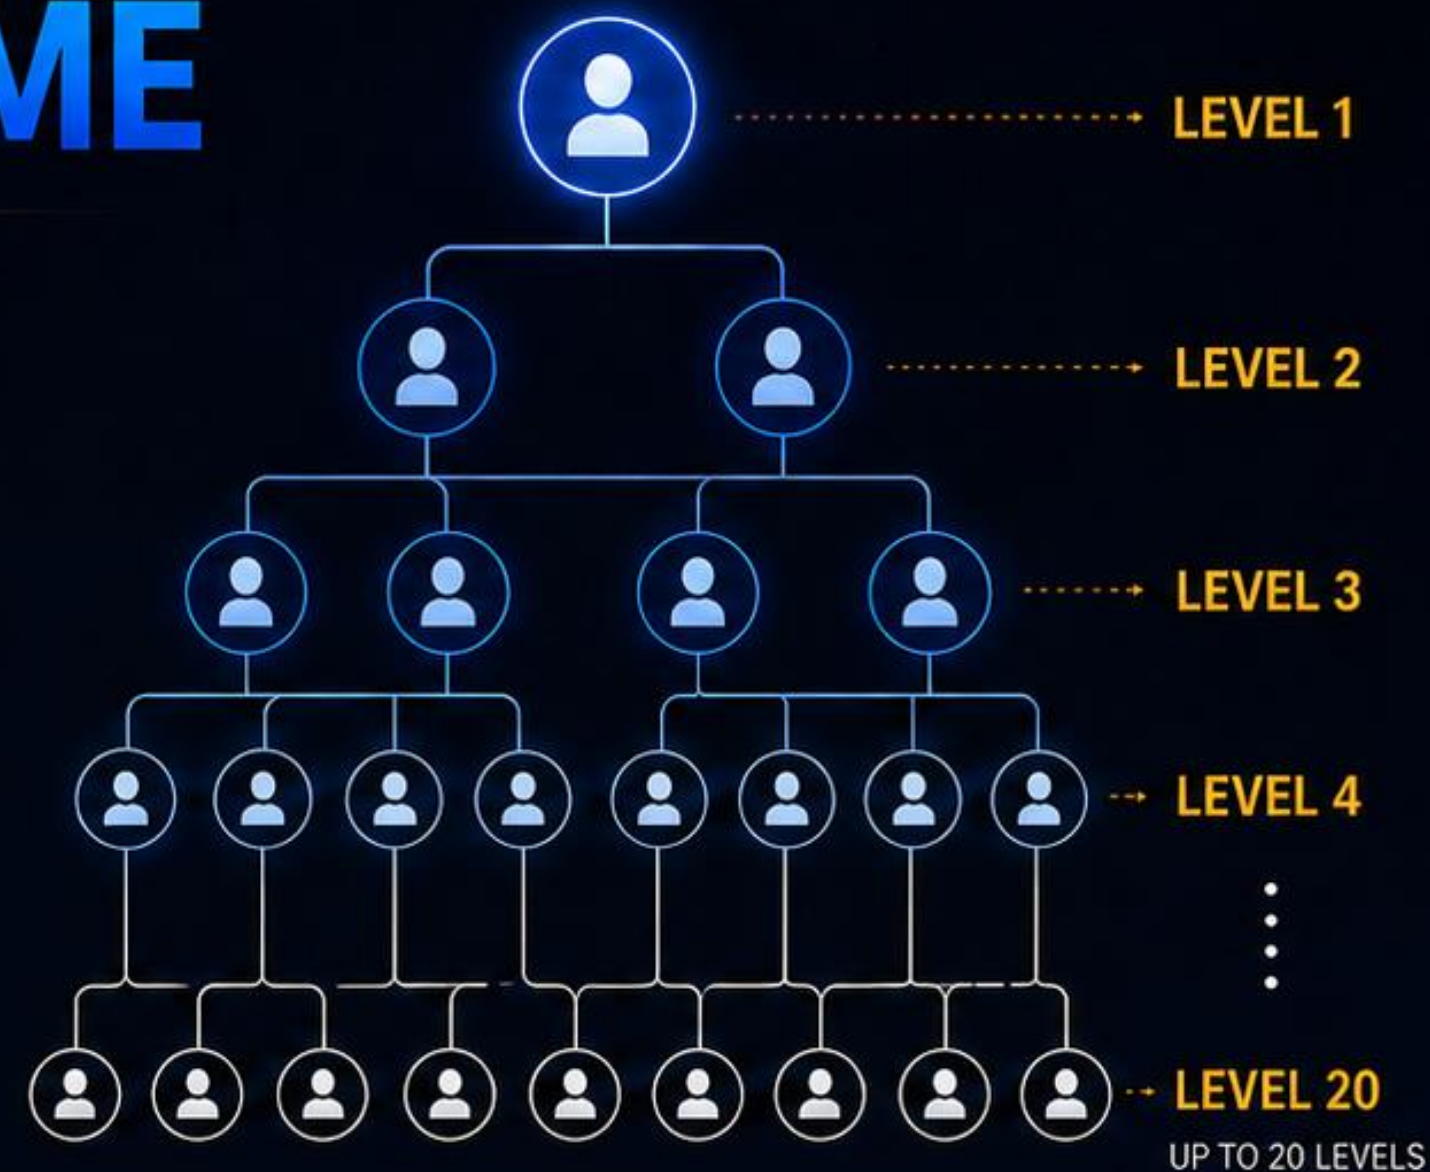

This income is distributed in the user network as per the level structure.

When users join and activate their ID in the downline, eligible uplines can receive level income according to the level-wise income plan.

Level Income helps users grow through team building and community expansion.
